

Project Designer/ Architect

Workshop Architects is seeking a **Project Designer / Architect** with at least 5 years of experience to join our team in the **Milwaukee office**. The ideal candidate will be motivated and agile-minded - committed to continuously exploring new ways to think, make, and discover what makes spaces and places beloved.

EDUCATION AND EXPERIENCE:

- Bachelor's degree in Architecture required, master's degree preferred.
- Minimum 5 years of professional experience required.
- On-the-job experience using Revit to produce construction documents required.
- Sustainability credentials preferred.

KNOWLEDGE & SKILLS:

- Working knowledge of engineering systems and the ability to successfully engage with professionals in a multi-disciplinary environment.
- Intermediate proficiency with Revit, AutoCAD, Sketch-up, Photoshop, Illustrator and In-Design programs required.
- Communicates ideas effectively in graphic, written and verbal form.

WHAT YOU WILL DO:

- Understand and implement design through the preparation of drawings, computer models, physical models, etc. for concept design through construction administration in adherence to the project's design goals
- Champion focus on sustainability and green design solutions that meet or exceed best practices for the particular project type.
- Offer creative solutions and provides innovative, artistic, imaginative thinking and ideas.
- Understand the technical and financial impact of design decisions.
- Relate building design concepts to building codes, zoning ordinances and other external issues.
- Consult with manufacturers, research and propose materials and products.
- Prepare and create presentation drawings and/or graphics and otherwise assist in presentations both internally and externally.
- Coordinate between drawings, specifications and engineering systems.
- Ability to analyze and coordinate issues related to codes, accessibility and zoning.
- Train team members in project related activities and responsibilities.
- The ability to contribute proactively to a project team.
- QA/QC one's own work product.
- Work harmoniously, effectively and respectfully with subordinates, peers, supervisors, vendors, clients and contractors.
- Strong written and verbal communication skills. Keeps client, consultants, team, etc. adequately informed of necessary information.

WHO WE ARE:

- **Workshop Architects** is a nationally recognized **architecture, strategic planning, interior design, and research firm** headquartered in **Milwaukee, WI**.
- Our practice specializes in **local and national student life facilities** ranging from \$25 - \$100 million in size as well as important mission driven clients in Workplace, Housing and Hospitality.
- We are **talented, enthusiastic professionals** with diverse backgrounds and a simple goal – create experientially rich spaces – reflective of the communities they serve.
- Visit our design portfolio at www.workshoparchitects.com.

WHAT WE ARE ABOUT:

- **Community** – Everyone wants to belong. Our Human-Centered guiding principle in design and in our studio culture revolves around this most fundamental need.
- **Building** – We are, after all, architects and designers that love to make things. Only for us, the success is not measured by the awards on the shelf, but the smiles in the spaces we design.

WHAT WE OFFER:

- Full or part time opportunities with competitive compensation.
- Competitive compensation and benefits package including medical, dental, and vision.
